

MAJID RAZAK

Software Engineer • Full-Stack Developer

Anantnag, JK, India • +91-7889368374 • majidrc16@gmail.com • linkedin.com/in/majid-razak-chasballi-1202aa1bb • github.com/Majidrc16

PROFESSIONAL SUMMARY

Results-driven Software Engineer with **3 years of professional experience** specializing in scalable, data-heavy web applications and enterprise systems. Strong experience across React/Node.js development, business intelligence, system monitoring, database operations, API integration, QA, and performance optimization. Proven track record supporting high-profile enterprise initiatives including Saudi Arabia's sovereign wealth fund (PIF) and public infrastructure authorities. Experienced with Microsoft-oriented technology environments including **Power BI and ASP.NET**, along with Linux, REST APIs, relational databases, Selenium, JIRA, and Agile delivery. Adept at secure data validation, system reliability, performance troubleshooting, and delivering maintainable enterprise solutions.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, PHP, SQL, HTML5, CSS3, C/C++
Frontend Frameworks:	React.js, Next.js, Redux Toolkit, Zustand, Context API, Tailwind CSS, Sass, Material UI
Backend & Databases:	Node.js, Express.js, PostgreSQL, Oracle Database, MySQL, GraphQL, ASP.NET
Microsoft & BI:	Power BI, ASP.NET, Microsoft Foundations of Front-End Coding, enterprise reporting & monitoring
System & Operations:	Linux, REST APIs, Git, Vite, OutSystems, enterprise application support, performance optimization
Security & QA:	Secure data validation, data integrity, Selenium WebDriver, JIRA, Jest, API Testing, Regression Testing
Visualization:	Highcharts.js, ApexCharts, D3.js
Enterprise Methods:	Primavera P6, UI/UX Operations Design, Agile/Scrum

PROFESSIONAL EXPERIENCE

AlAwwah Technology Consultants – Riyadh, Saudi Arabia (Remote/Hybrid)

May 2025 – Present

Software Engineer

Junior Software Engineer

April 2024 – May 2025

- Designed, deployed, and scaled responsive full-stack web applications using React.js, Node.js, and Express.js, successfully eliminating legacy performance bottlenecks.
- Engineered interactive dashboards and critical Business Intelligence (BI) monitoring solutions using Highcharts.js and ApexCharts for enterprise-level reporting and operational visibility.
- Spearheaded quality-control workflows by authoring and running comprehensive manual and automated test suites via Selenium and JIRA, minimizing post-release deployment defects.
- Architected and optimized secure data-validation rules and relational query schemas across PostgreSQL and Oracle Database environments to maintain high data fidelity and reliable enterprise data workflows.
- Collaborated cross-functionally across Scrum sprints to optimize system state management using Redux and Zustand and improve the reliability of complex application workflows.

Frontend Developer

- Developed high-performance UI components using React.js and Tailwind CSS with a strict emphasis on pixel-perfect, mobile-first design system alignment.
- Partnered with backend engineers to consume microservice RESTful APIs, modernizing network data lifecycle speeds and page-load milestones.
- Iterated on legacy component architectures, significantly improving DOM-render times and UI animation smoothness.

KEY PROJECTS

Saudi Water Authority Infrastructure Project**Technologies: Oracle Database, Primavera P6 Software, UI/UX Operations Design**

- Managed enterprise relational data workflows leveraging Oracle Database to control backend schema data, ensuring high integrity for critical structural tracking assets.
- Utilized Primavera P6 to systematically model project-control timelines, lifecycle scheduling metrics, and engineering resource alignment matrices.
- Executed comprehensive UI/UX operations design workflows through Primavera enterprise interfaces, maximizing project tracking and planning visibility for public stakeholders.

PIF Portal (Public Investment Fund Architectures)**Technologies: React.js, Redux, Highcharts.js, ApexCharts, REST APIs**

- Developed interactive, data-heavy BI portals monitoring multi-billion-dollar domestic investments and regional economic indices for Saudi Arabia's sovereign wealth fund.
- Constructed high-level administrative components focused on data transparency, intuitive UI layouts, and low-latency rendering.

MileBI & ETQAN (Project Portfolio Management Frameworks)**Technologies: React.js, Node.js, Express.js, PostgreSQL, Selenium, JIRA**

- Built real-time visualization widgets for MileBI tracking metric alignment across system dependencies, validating integrity through rigorous automated regression frameworks.
- Partnered on core ETQAN modules to map lifecycle workflows, streamline cross-team issue resolution, and improve visual tracking pipelines.

EDUCATION

Islamic University of Science & Technology – Jammu & Kashmir, India

2018 – 2022

Bachelor of Technology (B.Tech.) in Mechanical Engineering

PROFESSIONAL CERTIFICATIONS

- **Foundations of Project Management** – Google (Coursera)
- **Software Engineering Essentials** – IBM (Coursera)
- **Foundations of Front-End Coding** – Microsoft (Coursera)
- **Object-Oriented Design** – University of Alberta
- **React JS Crash Course** – Udemy
